

Duolin inhalers supply issue

Salbutamol with ipratropium bromide

Duolin supply issue

Delays at the factory has delayed the next shipment of Duolin.

New Zealand will run out of Duolin inhalers before the next shipment arrives.

You will need a new prescription

You can still get the same treatment, but you will need two inhalers.

Your doctor, or the person who prescribed Duolin, will need to write two new prescriptions for the two inhalers.

Follow the instructions on the label

The label on the inhalers will tell you how much to take to get your dose.

Talk to your pharmacist if you have any questions about using the two inhalers.

We're sorry for the disruption

Pharmac and medicine suppliers work hard to stop supply issues affecting people, but unfortunately we have been unable to avoid this one.

More information

You can learn more about this supply issue on our website.
