

Oestradiol patches

Estradot and Estradiol TDP Mylan funded from 1 December 2025

From 1 December 2025, Estradiol TDP Mylan and Estradot will be the funded brands of oestradiol patch.

Brand options important

You have told us that the brands work differently for different people.

We heard you. Now both brands are funded.

Same active ingredient, in the same quantity

Medsafe have approved both patch brands. The active ingredient is available in the same amount in both brands.

More information

You can learn more about this change on our website. Use the web address or scan the QR code with your phone.

Supply issue remains for Estradot

Pharmac has secured as much Estradot as the supplier can provide.

However, there may be times when there is not enough Estradot for everyone who needs it.

Ample supply of Estradiol TDP Mylan

The supplier of Estradiol TDP Mylan assures us that it can produce enough patches to meet the demand in New Zealand.

Patch limit and monthly dispensing remain

Because the stock of Estradot is limited. We have kept the patch and dispensing restrictions in place.

These limits help spread the supply of patches more evenly.
