

Pioglitazone (Vexazone) tablets

Supply issue

Your usual Vexazone tablets are temporarily unavailable.

Temporary alternative

Pharmac has funded a different brand of your usual medicine, called Pioglitazone Rising.

Same active ingredient

The tablets contain the same active ingredient, in the same amount.

You should not notice any difference in how it works.

You may notice the tablets are a different shape and have different markings.

Your informed consent needed

This medicine is approved for use in other countries, but Medsafe hasn't approved this product for New Zealand.

Because of this your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

www.pharmac.govt.nz/pioglitazone

The Rising brand tablets come in a white bottle with a light blue and yellow label. The 15 mg is highlighted in teal, the 30 mg is highlighted in cyan blue.
