

Calcitriol | Supply issue

What's happening?

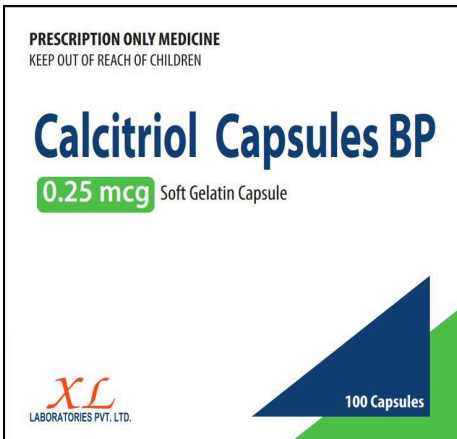

Because of a supply issue, your usual brand of calcitriol, AFT, is not available.

Different brand, same medicine

Your pharmacist has given you XL Laboratories branded calcitriol. It contains the same active ingredient in the same quantity as your AFT calcitriol.

While this medicine has not been approved for use in New Zealand, it has been approved for use in other countries.

XL Laboratories branded calcitriol

The 0.25 mcg has blue and green packaging

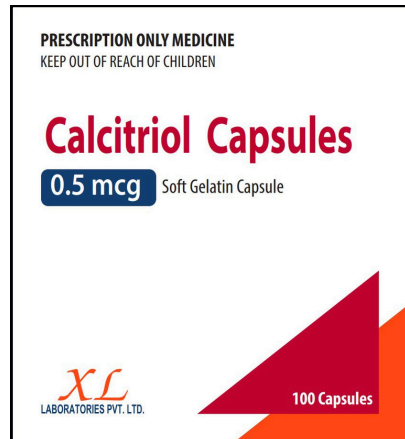

Informed consent

Your prescriber and pharmacist have extra steps they have to follow because this medicine isn't approved, including talking to you about what this means, including getting your informed consent.

More about unapproved medicines

You can find more information about unapproved medicines at:
