

Olanzapine | Supply issue

Due to problems at the factory, your usual brand of olanzapine (Zypine) is not available.

Apo-Olanzapine is your temporary brand

To ensure you can continue to access treatment, Pharmac has funded the Apo-Olanzapine brand of olanzapine.

Same active ingredient

Apo-Olanzapine contains the same active ingredient, in the same strength. It is designed to work in your body the same way.

Your informed consent needed

This medicine is approved for use in other countries, but Medsafe hasn't approved this product for New Zealand.

Because of this your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

Different, but the same effect

Apo-Olanzapine comes in a different box. It may taste different from your usual tablet, but it will work the same way.
