

Your medicine has French packaging

Due to a problem with a recent shipment of Condyline, the supplier doesn't have any New Zealand labelled product.

They have supplied an alternative, but it has French labelling.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

Same product, made in the same factory

This product is exactly the same as the New Zealand product. There will be a sticker on the box in English.

The bottle will have a French label and your pharmacist may have put a sticker on that.

Your informed consent needed

Medsafe hasn't approved the packaging, so your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what being unapproved means and getting your informed consent.

About unapproved medicines
