

Sodium valproate (Epilim) 100 mg crushable tablet

Discontinuation

Epilim 100 mg crushable tablets are no longer being made.

Talk to the person who prescribes your Epilim

Other forms of sodium valproate are still available and funded.

You will need to talk to the person who prescribed the Epilim crushable tablets about the best alternative.

You will need a new prescription.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

Please act before November 2026

We expect the crushable tablets will no longer be available by the end of November 2026.

Please talk to the person who prescribes your Epilim before then.

We're sorry

We know that changes to medicines can be disruptive.

Unfortunately, the supplier of this product has decided to stop making it.
