

# Lanreotide (Mytolac)

## Supply issue

There is a supply issue affecting your usual brand of lanreotide.

### **Somatuline Autogel is your temporary new brand**

To make sure you can continue to access this treatment, we have temporarily funded Somatuline Autogel.

Medsafe has approved this brand.

### **Same active ingredient, in the same amount**

Somatuline Autogel is the reference product for your usual Mytolac brand. This means it has the same formulation. It should work in your body the same way.

### **Check the instructions**

The injection for Somatuline Autogel may look a little different from Mytolac. Read the instructions carefully before administering it.

### **We're sorry**

We know that supply issues can be disruptive. Unfortunately the supplier has not been able to avoid an outage.

### **More information**

There's more information about this on our website. Use the web address or scan the QR code with your phone.
