

Dispyramide (Rythmodan) New Look

New look packaging

Your Rythmodan has new packaging.

It is going from packaging made for Canada to packaging made for the UK.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

www.pharmac.govt.nz/rythmodan

Same medicine, same ingredients

It is the same medicine inside, the capsules are the same colour, and have all the same ingredients (both active and inactive ingredients).

Not Medsafe approved

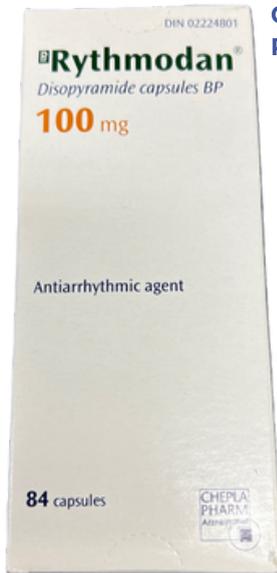

Neither the UK nor the Canadian packaged product is approved by Medsafe for use in New Zealand.

Both products are approved for use in their home country.

Your informed consent needed

Because Medsafe hasn't approved this, your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.
