

Oxycodone 5 mg immediate release

Supply issue

What's happening?

The tablets you have been prescribed are not available. This problem was caused by shipping delays.

We're sorry for the disruption

Pharmac and medicine suppliers work hard to stop supply issues affecting people, but unfortunately we have been unable to avoid this one.

More information

Find more information about this issue on our website.

Getting your treatment

Your pharmacist will talk to you about what to do next. Other options are available, but you might need to talk to the person who prescribed your oxycodone about which one is best for you.

This might be:

- halving the 10 mg tablets to get your dose or
- taking oxycodone as a liquid or
- trying a different medicine.

No data? No problem!

- Go to www.zero.govt.nz
- Select Healthify or Pharmac
- Browse the site without using any mobile data.
