

Prazosin | Brand change

Your brand of prazosin is changing to Apo-Prazosin.

Same active ingredient in the same amount

This Apo-Prazosin has the same active ingredient in the same amount as your current brand. It is designed to work in your body the same way

Tablets may be familiar

This brand has been funded before. It was unavailable for a couple of years following a fire at the factory it was made in.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

pharmac.govt.nz/prazosin

Tablets not capsules

Mylan, your previous brand, came in capsules. Apo-Prazosin comes in tablets.

Medsafe approved

Medsafe has reviewed Apo-Prazosin and confirmed that it meets New Zealand's standard of safety, quality, and effectiveness.
