

Risperidone | Supply issue

Due to problems at the factory, your usual brand of risperidone (Teva) is not available.

Risperidone (Relonchem) is your temporary brand

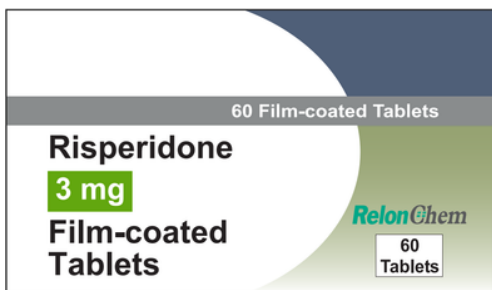

To ensure you can continue to access treatment, Pharmac has funded the Risperidone (Relonchem) brand of risperidone.

Same active ingredient

Risperidone (Relonchem) contains the same active ingredient, in the same strength. It is designed to work in your body the same way.

Different, but the same effect

The tablets you get from the pharmacists may have a different shape or colour from your usual tablets.

Risperidone (Relonchem) box

Your informed consent needed

This medicine is used in other countries, but Medsafe hasn't reviewed this product for New Zealand.

Because of this your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.
