

Your usual Ursosan capsules are not available.

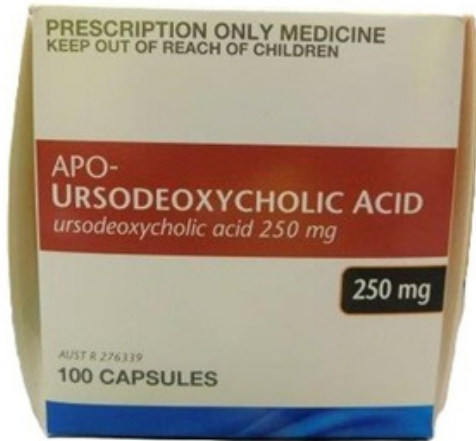

Temporary alternative

Pharmac has funded a different brand of your usual medicine, called Apo-Ursodeoxycholic Acid.

Same active ingredient

The capsules contain the same active ingredient, in the same amount.

You should not notice any difference.

Apo-Ursodeoxycholic Acid box and blister pack

Your informed consent needed

This medicine is approved for use in other countries, but Medsafe hasn't approved this product for New Zealand.

Because of this your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.
