

Olanzapine 5 mg ODT | Supply issue

Due to problems at the factory, your usual brand of olanzapine (Zypine ODT) is not available.

Zyprexa Zydys is your temporary brand

To ensure you can continue to access treatment, Pharmac has funded the Zyprexa Zydys brand of olanzapine.

Same active ingredient

Zyprexa Zydys contains the same active ingredient, in the same strength. It is designed to work in your body the same way.

Your informed consent needed

This brand is used in other countries, but Medsafe hasn't reviewed this product for New Zealand.

Because of this your prescriber and pharmacist have extra steps they have to follow.

These include talking to you about what this means and getting your informed consent.

Different, but the same effect

Zyprexa Zydys comes in a different box. It may look and taste different from your usual tablet, but it will work the same way.

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.

Zyprexa Zydys box

The box refers to the tablets as, "wafers". Zyprexa are round, white tablets.

No data? No problem!
