

Rosuvastatin supply issue

There is an issue affecting the availability of rosuvastatin tablets.

Temporary new brands

If you take rosuvastatin, you may notice that your usual tablet looks different or comes in different packaging.

Same active ingredient, in the same amount

Please be assured, whether it's Viatris, Sandoz, or Mylan, your medicine has the same amount of active ingredient and is designed to work in your body the same way.

Medsafe approved

Medsafe, the government agency responsible for medicine safety, has reviewed these medicines and approved them for New Zealand.

They have made sure they meet New Zealand standards of safety, quality, and effectiveness.

We're sorry

We understand that frequent brand changes can be disruptive. These are necessary to ensure you can continue to access your medicine

More information

There's more information about this on our website. Use the web address or scan the QR code with your phone.
