

Interested in PHARMAC's work in hospital medical devices?

Want to find out more about what we are doing and how it affects your DHB?

Come along to a 15-20 minute presentation to hear PHARMAC senior staff explain what we are doing. This is your chance to ask us questions and find out more about it.

Lunch provided after the presentation, with a further opportunity to talk with PHARMAC staff.

PHARMAC is holding a series of forums in DHBs around the country to update clinicians and staff on our hospital medical devices activity. We are keen to continue our partnership with you to ensure we are mindful of the implications for patients, clinicians and staff as we expand the scope of our national contracts and market share agreements.

RSVP: Please go to www.pharmac.govt.nz/forums to register.
