

**Rheumatology Telehealth
The Patient's and Nurse Perspective
Frances Kasmi RN
Rheumatology Clinical Nurse Specialist
SFT-14 Adelaide Australia**

Rheumatology Patient Support Care Management Model

Telehealth is patient-focused and improves the patient's pathway to Rheumatology Service.

- Timely treatment closer to home
- Reduce travel
- Improve access to treatment
- Provide improved quality of care
- Provide convenience and flexibility in care
- Specialist consults to help make decisions about care
- Increased efficiency
- Improved patient outcomes
